

ABOUT US

Our goal is to develop a role, representing the commercial interests of many independent companies, producers and traders who are interested in competitive global sourcing,

Asayl Majan Al Mumaiza LLC (AMM) is a

young aspiring trading company established specifically oriented to participate and involve in Real Estate and Infrastructure projects in the Sultanate of Oman as well as international trading and marketing. The activities are managed by few talented and experienced professionals with a strong desire and vision to create an industry-leading organization that would push the boundaries of the local construction scene.

We are a transparent trader, providing highly competitive, faster and professional services. We promote a smooth flow of goods from the producers to the customers, giving value to all. We are always with a customer service focus, intended to add value to its clients' business.

We believe that business operations depends on three key elements: people, product and profits. Unless you've got a good team, you can't do much with the other two. We emphasize the importance of teamwork in the company and this culture persists till this day.

We will continue to grow as a reliable trading company that provides "top-class products" and bridging the gap between the vendor and customer, with excellent coordination skills and global-support systems.

- Ring Main Units (RMU)
- Feeder Pillars
- Earthing & Lightning Protection System
- Instrumentation Products
- Door Automation System

- Health & safety and PPE
- Supply of Special Items
- Construction & Industrial Tools

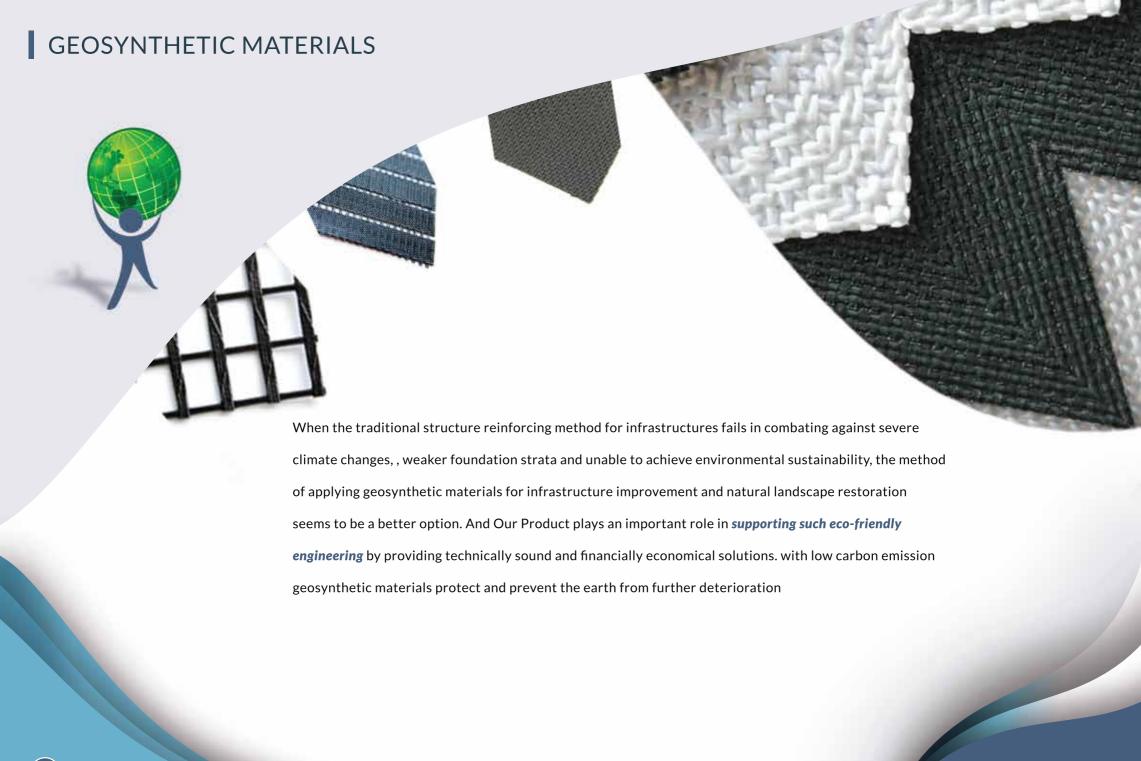

GENERAL BUILDING MATERIALS

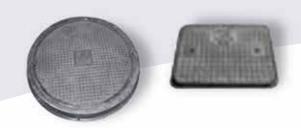

AMM is one of the *preferred organizations* for the procurement of the right product for the project on hand. Coupled with years of experience and the commitment of our team to provide

the best of products, we have blazed the path in supplying quality building and construction material to our clients

DRAINAGE CHANNELS GRATINGS MANHOLE COVERS

Poly concrete Channel system offers a range of flat channels and slopes for medium and heavy duty applications. With a wide range of gratings and a full range of accessories, Poly concrete Channel will satisfy the requirements of any channel drainage application.

■ Poly Concrete Drain Channels

We supply cast Iron and ductile Iron products such as manhole covers & frames, gratings, curb/ services/ valve boxes, surface boxes, machined casting, ornamental casting, garden beaches, fence paneling, railings, molded plastic products, channel gratings fabricated access covers/ duct covers, sheet metal component and steel grating with hot dipped galvanizing to international standards

Advantage of poly concrete channel

Polymer concrete trench drains have a water absorption rate around 1 percent.

High compressive strength of polymer concrete trench drains is 3 to 4 times stronger than standard concretes

Like most polymers, polymer concrete is resistant to a number of harmful chemicals that are corrosive to traditional concrete.

■ PACKAGE TYPE SUBSTATIONS

We supply Package Compact Substations with prefabricated metal clad outdore enclosed with compacted dimention and low installation space. technical charecters ensure trouble free operatrion and supply energy to customer without any interruption. The substation is designed to suit tropical climates of Middle East &

African countries. Sheet steel section with weather

proof .The product have been repeatedly

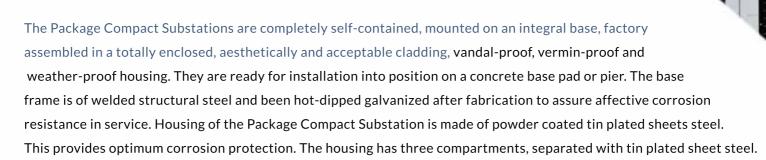

inspected and tested to meet all applicable standards of IS / IEC, to

ensure you of a first-rate quality product, which should give many years of satisfactory performance. Personal safety, minimum maintanace, simple instalation and relailability are the main

fetures of the

product.

The transformer compartment is completely separated from the medium voltage and low voltage compartments.

TRANSFORMERS RMU FEEDER PILLAR

TRANSFORMERS

Supply of oil type transformers. Dry type transformers, cast resin transformers, Induction furnace transformers. lighting transformers compying to Oman electrical standard (OES) and internation electrical standard (IES)

I RMU

The Ring Main Unit solution combines all MV functional units to enable connection, supply and protection of one or two transforms on an opening network

IFEEDER PILLAR

Feeder pillar is an effective electrical enclosure to provide electrical services for low voltage electrical distribution applications.

EARTHING & LIGHTNING PROTECTION SYSTEM

(SUPPLY & INSTALLATION)

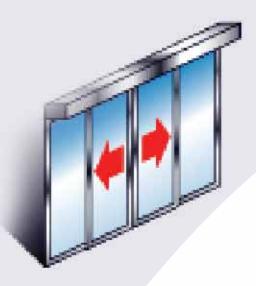

AMM work
internationally with
consultants, contractors
and power engineering
concerns either directly
and through our
comprehensive network
of distributors.

We offer design, site support and supervision services for *Earthing & Lightning Protection* in accordance with the new BS EN62305, design of Earthing systems to BS 7430 and Local Codes of practice, Soil Resistivity Tests & Reports, Earth Resistance Tests & Reports, Inspection and supervision on sites for installation of LPS.

Our products are tested to and in compliance with BS EN 50164 (BSEN62305) Lightning Protection & Earthing and BS7430 Earthing

DOOR AUTOMATION SYSTEM

We have a dedicated team for the *installation of all types* and we uses world class products of world's most complete suppliers of entrance automation solutions. With a holistic approach to the flow of people, goods and vehicles, we create solutions with the best possible balance of cost, quality and lifetime performance.

Today we have gathered a strong portfolio of **global brands under a single roof**, preserving the wealth of expertise of each. AMM uses the brands

that are market leaders in their fields since decades, and have a strong history of proven solutions and extraordinary service know-how.

Our solutions form a total offering for the *front*, *back and interior of your building*. Our combined approach means we understand the full range of challenges you face, and allows us to provide the best solution for your total entrance needs.

OILFIELD PRODUCTS

Hands and arms

Gloves, gauntlets, mitts, wrist-cuffs, armlets.

Feet and legs

Safety boots and shoes with protective toe caps and penetration-resistant mid-sole, gaiters, leggings, spats.

PIPES & FITTINGS VALVES & FITTINGS

■ PIPES & FITTINGS

Supply of;

- MS Pipes
- O DI Pipes & Fittings
- HDPE Pipes & Fittings
- uPVC Pipes & Fittings
- PVC Pipes & Fittings

We provide HIGH QUALITY FITTINGS,
VALVES & PREFABRICATED
ASSEMBLIES. Our products have been
recommended and installed on most
difficult applications in Oil & Gas, Nuclear
/ Thermal /Gas Power Plants, Ship
Building, Research, Analytical, CNG,
Chemical & Fertilizers, Pharmaceuticals,
Water Treatment and many more. we
have developed many strong
relationships with our customers and our
vendors.

CONSTRUCTION & INDUSTRIAL TOOLS **CONSTRUCTION TOOLS INDUSTRIAL TOOLS** A sure source to meet your requirements We are dealing with all kind of industrial works for in construction tools and specialized items which you have come to us and this is what will prove our worth to you.
